

Sunlite 90158 7-Inch Modern Cylinder Wall Sconce, Minimalist Downlight, Aluminum Shade, 75 Watts Max, E26 Bulb (Not Included), Suitable for Wet Locations, Living Room & Entryways, Matte Black Finish

DESCRIPTION:

Highlighting a dedication to quality and integrity, the Sunlite product line includes light bulbs of LED, linear fluorescent, compact fluorescent, incandescent, HID metal halide, halogen, decorative, and specialty lamps. In addition, the Sunlite line includes various indoor and outdoor commercial, Industrial, and residential fixtures. Electrical products include extension cords, socket adapters, wall plates, receptacles and switches, dimmers, timers, surge protectors, and much more.

FEATURES:

- **LOW PROFILE** - The 7-Inch cylinder wall sconce offers effortless and modest lighting to indoor and outdoor spaces. The minimal spotlight is a low-profile fixture that easily blends or enhances existing fixtures. This distinctive design allows lighting at its center that pours out vertically through the open end
 - **GEOMETRIC DESIGN** - The minimal downlight is a modern-day lighting mainstay that's low profile and yet stylish. The simplistic fixture has a geometric design that will provide sufficient lighting. Ideal for placement in areas like hallways, bedrooms, and living rooms.
 - **BULBS** - Each downlight requires 1 E26 Medium bulb. Try a SUNLITE 80597 3000K LED bulb for everyday tasks or in areas like kitchens, bathrooms, and powder rooms. For a relaxed and calm setting, pair the fixture with a warm white color temperature like the SUNLITE 88379 LED Bulb 2700K. Pairing the fixture with a SUNLITE 80598 5000k LED Bulb would be great for retail spaces, this would allow more lighting to showcase merchandise.
 - **DURABILITY** - The low-maintenance wall light sports a solid steel construction, so it is built to last. With its recessed lighting and strong housing, this allows a greater degree of durability within its application space. Mount it in different areas in your home for the desired look.
 - **DAMP RATED & EASY INSTALLATION** - Suitable for wet locations, which is great for many applications. Perfect for covered porches, garages, basements, and many more! Designed to be installed directly to a standard junction box with no additional hardware or instructions for mounting on wall.
- Dimensions HxWxD: 4-
