

**Sunlite 90159 4 Inch Modern Cube Ceiling Spotlight, Matte Black Finish, Aluminum Shade, Minimalist Design Downlight, 50 Watts Max, GU10 LED Bulb (Not Included), 120V, Living Room & Entryways**

**DESCRIPTION:**

*Simplicity is how you would best describe the Sunlite 90159 4 Inch Modern Cube Ceiling Spotlight. Built with spotlight design in mind, this matte black downlight highlights a slender silhouette using smooth aluminum that would give dimension to any ceiling. With its minimal shape, this sophisticated downlight can be versatile. Try different color temperatures for that desired look. Works well alone or in pairs throughout your home. The fixture is ETL listed so it could be mounted in many applications. If minimalist interior design is your sought-after vision, then this downlight would be a great addition.*

**FEATURES:**

- **LOW PROFILE** - The 4 Inch Cube ceiling light offers effortless and modest lighting to indoor spaces. The minimal spotlight is a low-profile fixture that easily blends or enhances existing fixtures. This distinctive design allows lighting at its center that pours out vertically through the open end.
- **GEOMETRIC DESIGN** - The minimal downlight is a modern-day lighting mainstay that's low profile and yet stylish. The simplistic fixture has a geometric design that will provide sufficient lighting. Ideal for placement in areas like hallways, bedrooms, and living rooms.
- **BULBS** - Each downlight requires 1 GU10 bulb. Try a SUNLITE 80512 3000K bulb for everyday tasks or in areas like kitchens, bathrooms, and powder rooms. For a relaxed and calm setting, pair the fixture with a warm white color temperature like the SUNLITE 80511 GU10 Bulb 2700K. Pairing the fixture with a SUNLITE 80532 5000k bulb would be great for retail spaces, this would allow more lighting to showcase merchandise.
- **DURABILITY** - The low-maintenance ceiling light sports a solid aluminum construction, so it is built to last. With its recessed lighting and strong housing, this allows a greater degree of durability within its application space. Mount it in different area in your home for the desired look.
- **ETL LISTED & EASY INSTALLATION** - Damp located rated, which is great for many applications. Perfect for covered porches, garages, basements, and many more! Designed to be installed directly to a standard junction box on any wall. Hardware and instructions for mounting on any standard junction box included. Dimensions: 4"H | 4" W | 4" D
